Esther F. MacKay, passes away at 102

Esther MacKay was born in Massachusetts but grew up in Cape Breton, NS. She attended PNC and taught in Cape Breton for several years before returning to the US in 1930.

In 1943 she enlisted in the Women's Army Auxiliary Corp. She was deployed to England, France and Germany. Esther was in London on the day World War II ended.

She was transferred to the Air Force in 1948 and relocated to Westover Air Force Base in Massachusetts. She then worked in the Pentagon for the Secretary of De-

fense and in NORAD Command Headquarters. Chief MacKay was selected to greet Winston Churchill on one of his visits to Washington, DC. She retired with the rank of Master Chief Sergeant in 1965.

Last August, Master Chief Sergeant MacKay was honoured and appointed Honorary Charter Chief. She is the third woman to be honoured in this way. At the time of her appointment she was the Air Force's oldest chief master sergeant.

Esther said she followed two guiding principles – "being patient and willing to work hard" – that

Master Chief Sergeant Esther MacKay

she shared with current Air Force troops. Esther MacKay passed away December 21, 2007.

"Why should I attend a Reunion?"

Editorial by Sandy MacDougall, '85

I'm often asked this question as I talk about the **Alumni Association** and its activities. In this age of e-this and net-that, people often feel they have enough contact through email, instant messaging, Facebook and other social networks. However, my experience is that getting together with people who have had a similar experience and talking, laughing, sharing stories of challenges and success over lunch, dinner or a drink is a much more rewarding experience than a quick email or Facebook message.

Many of my friends are also worried that there won't be any "recent graduates" at the reunion. Well, I hate to break it to you, but the College closed 11 years ago. None of us graduated recently! So, here's my suggestion, use the internet to get in touch with 5 or 6 (or 10 or 15) of your friends from TC days and make a plan to attend the Reunion in August. It doesn't matter what year it is... it can be your 17 year reunion, or your 22 year reunion! And, if you'd like to come out but can't get any of your friends interested, then come anyway! Find some of the organizing committee and join us for a fun weekend!

President's Message

By David Pottie

As I finish up my second term as President, I offer these few comments. Since I have been involved

with the NSNC/NSTC Alumni Association, discussions and money raising have centered around what everyone referred to as "the Building Fund." Briefly, there was, and remains, the desire to have a facility to house and preserve the artifacts of 143 years of teacher education in Truro.

A few years ago, your executive felt it was time to put on paper the terms of the understanding between the Friends of the Little White School House Association (FLWSA) and the Alumni Association (AANSTC). When the fund was started with a donation in 1997, the money was deposited with the FLWSA to avoid the necessity of us getting charity status and a number under which we could issue receipts. This worked well for many years until the verbal agreement became somewhat fuzzy—as they tend to do over time. We sought legal assistance in drawing up an agreement and met several times with the FLWSA executive either as an entity or as individuals.

At the regular April meeting of the Executive council of the AANSTC, we will present an agreement between the FLWSA and ourselves for ratification or dissent and the results of that will be recommended to the Annual Meeting in August. What is being presented will be posted on our web site (www.nsteacherscollege.ca).

Speaking of the building

fund, a report commissioned by the Town of Truro regarding the future use of the old Normal College building will be released by the time you receive this newsletter. We hope it includes some provision for a space for our use.

The reunion this year is planned for August 15 - 17, 2008 and we are very pleased with how the changes in the Friday night program have been accepted. For the past three years we have had speakers on Friday evening, starting with Paul Zann and followed by Alistair MacLeod and Karen Casey. All three presentations were very well received. The speaker for 2008 will be David White, last principal of NSTC who will, I'm sure, match the speakers before him. We plan to have some entertainment following this as well as continuing the reception.

Not only do I encourage all graduates to attend the reunion, but I urge each of you (particularly the 8's) to become an ambassador for the Association and call, e-mail or write your classmates, making certain they are aware of the event and ask them to call others. We believe you will have an enjoyable time with friends.

Thanks to Bob Jordan and the full Executive Council for their efforts and support over the past years and a special thanks to Sandy MacDougall for taking responsibilities within the organization, particularly the web site and this newsletter.

David Pottie graduated from NSNC in 1961. He was elected Vice-President of the Alumni Association in 2002 and President in 2004.

On Closing Teacher's College

By Peggy Ouelette

I retired from my job as Supervisor of Curriculum for Richmond County in September, 1994 with some mixed feelings about leaving education but breathing a sigh of relief that I had "made it" and happy to have more time to myself. However, I was invited to apply for a position as Professor of Special Ed. At Nova Scotia Teachers College and in December I was interviewed and hired, with a 6-month contract that turned out to be for two and a half years.

When I traveled to Truro I could not help thinking back to my first trip there in 1956 and to my days at Normal College. In those days you knew you were going to become a tenant of Seton Hall, with the Sisters of Charity. This time, arriving in the town on a Sunday afternoon, I had no such prospects and I was the equivalent of a student trying to find a place to board, with no leads. I began unpacking the car to transport books and files to my office on the third floor and entered the elevator only to have a group of seniors follow me, announcing that they were heading to a "travel club" meeting. During our brief discussion I expressed my concern about not having a place to stay for my 6 month's sojourn and one of the ladies gave me a "once over" and announced "You can stay with me, dear; I live just around the corner and I'll be home at 5 o'clock, should you care to visit." And that began a friendship that lasted until she died at 102 and provided me with a home away from home for my time at Teachers College.

That problem solved, my thoughts returned to the challenge of lecturing and guiding student teachers in an institution that was slated to close in 1997. What would the atmosphere be like? Would staff and students be demoralized and giving up? How could I contribute to the continued success of the school community and this time-honoured institution?

Although the buildings were strange to me and not the ones I remembered, immediately there were echoes of the past, with J.P. McCarthy witnessing my every move, Mrs. Bowden with her "say going, students—ing, ing, ing—go-ing!", or the laughing eyes of Stan Edwards hopelessly trying to teach us French. Or Mr. Dunphy, who insisted upon calling me "Margaret" when I wasn't about to respond after 18 years of "Peggy." The atmosphere had the same feel; I was home.

And so I began my days of teaching and my

days of learning, with a faculty and with a student body that became like a family to me, with Mr. David White at the head, setting the tone and the course. David was no J.P. McCarthy but he had a quiet way of knowing everything that was happening and a determination that there would be a positive attitude and atmosphere despite the imminent closure of the College and the challenge of transferring the facility to the Community College. Our teaching, and the whole life of the College, was centered on helping these young people become the best teachers they could be. At no time was achievement centered on standard tests, or a standard grade; academic achievement had its place but the emphasis was on how they learned, how they expressed themselves, their ideas and how they expressed those ideas. There was much attention on how they prepared lessons and how they interacted with students and staff during practice teaching; how they managed the classroom, disciplined students and worked with students at risk.

There were wonderful discussions in the classrooms following the practicum days centered on what was learned about teaching and how improvements could be made in the theory, the process and the methods of instruction. Despite our efforts and theirs some did not succeed; they were usually those who were never to be "made" into teachers and who could not transform themselves into teachers with the time and resources available. I know that they had the services of a very dedicated and professional faculty. It was a great privilege for me to have been part of this family of educators.

Despite the transfer of the campus to the Community College during the final months, the students and faculty continued to operate as though the school was never going to close. Activities that had been the life of the place continued - the sports, choir, drama club and the parties - everything that would mark the campus life that a visitor would expect. Life went on in a very admirable way and there was little indication that people were hurting. Very good people did hurt and are still hurting to this day. Closing Teachers College was a political decision, not one based on good theory, sound experience and good management and it was a big mistake. It will be years before this province once again has a teacher-training institution to match N.S.T.C. Today teachers

(Continued on page 4 - see Closing)

have 6 years of post-secondary education before the beginning of classroom work, 4 years of undergraduate and two years of Education—and one huge debt! With the current starting salaries of about \$40,000 (or below), living expenses, family expenses perhaps the need to purchase a car or a home, how do teachers manage to repay student loans acquired in those six years? (The poverty level for a couple in Nova Scotia today is about \$30,000.) And are these people better teachers? My response to that is that I would match any of my Teachers College students with the 6-year people any time you wish!

This past August (2007) I was at my 50-year reunion, with 5 of the teachers who graduated from T.C. in 1997 attending. It occurred to me then and I am convinced now that I would love to have any or all of those wonderful people teaching in my school.

I think the most disappointment for me was the lack of involvement on the part of the town of Truro during those last days. They did pay lip service during the ceremonies and offered some formal recognition, but the fact that this institution that was born in Truro in 1854 was to close, never to be seen again, seemed to go without a whimper on the part of Truro. Was it because the Chamber of Commerce members didn't value it as they would a seed plant, a bank or a WalMart? Does the cash flow in a town carry more weight than a noble and important cultural/educational institution? It's just a question! Perhaps it's part of the throw-away society; "something else will come along—we don't care what." Was the Community College a better thing? Is 6 years of student debt a better thing?

My 41 years as a teacher have taught me, among other things, that parents and the community as a whole must value and hotly pursue education to make it work, that there really is no "system" but that there are only communities of students and educators and that education thrives when the methods are based on the old principles of respect and interest in others, in creation and in always respecting and building on the student's ability. Six years of college do not make a teacher; teachers are born of learning communities, ...the family, the school, the church and the family of teachers.

"A university is what a college becomes when the faculty loses interest in students."

Guest Speaker, 37th Annual Reunion

The Honourable Karen Casey

Minister of Education for Nova Scotia
MLA for Colchester North

Retired and active teachers gathered in Truro in August to renew old friendships and to meet other NSTC Alumni. The Reunion activities are always launched with a former graduate sharing some reminiscences and stories about 'life since graduation.' Those who attended the August 2007 Reunion were honoured to have with them the

Honourable Karen Casey.

The Honourable Karen Casey, *Minister of Education, Minister responsible for The Youth Secretariat Act, Minister responsible for Apprenticeship and Trades Qualifications Act* and MLA for Colchester North, is no stranger to those who gathered on Friday evening of the Reunion.

Minister Casey was elected to the Legislative Assembly in June 2006. Prior to her election Minister Casey was a well known educator. She taught in the Truro area for many years, during which time she participated in a teacher exchange with the late Don Fox and taught mathematics at NSTC for a year. She went on to be principal at North River Elementary School and retired as Assistant Superintendent for the Chignecto-Central Regional School Board. All of these are experiences that no doubt enhance her ability to fill her role as the person in charge of Education in our Province.

Minister Casey had other training that surely compliments the experiences that she takes to her portfolio as Minister of Education. She is a

graduate of Nova Scotia Teachers College and as mentioned earlier, taught for a year at NSTC. What better credentials can one have?

Minister Casey was received warmly by the gathering. As she told stories about her life in the political realm, she grasped the interest of many. It is always captivating to hear about political life from the perspective of a politician. Minister Casey shared with her Alumni some of the activities that have occupied her life since becoming Minister of Education. She talked about five major reviews that she has initiated and gave an overview of the progress being made in each review:

- Review of School Closure
- Review of Delivery of Programs for Special Needs Students
- Review of Teacher Training
- Review of Student Transportation
- Review of Recommendations in the Black Learners Report

As educators, retired or otherwise, activities in the Education field always engage us. We are teachers and we never let go of that internal drive, the desire to see the best things happening for young people in our schools.

Minister Casey left all of us with many things to think about. What is Education in NS today really like? What needs to happen in this 21st century and what role do we need to play? It was good to get those Education juices flowing and catch up with today's initiatives.

Minister Casey was warmly thanked by the Alumni and their guests. 🐾

*Let us lay aside a moment of prayer for all our fellow Alumni friends who have passed away over the years.
Always Remembered*

Following are Minutes of Full Council Meetings, the Annual Meeting and a Special Meeting of the ALUMNI ASSOCIATION OF THE NOVA SCOTIA TEACHERS COLLEGE.

Minutes are in the order they occurred and all were recorded and submitted by Sue Kent, Secretary.

FULL COUNCIL MEETING

August 17, 2007

A full Council Meeting was held at the Glengary Hotel on Friday August 17, 2007 at 1:00 pm. The meeting was chaired by president David Pottie. Others present at the meeting were: Dorinda McCully, Roberta Macnab, Robert Jordan, Margaret Dawe, Rosella MacDonald, Helen MacDonald, Nancy Lou Austin, and Sue Kent.

David Pottie updated us on the proceedings concerning the NSTC Alumni Building Fund. The fund started when Dr. Jane Norman left \$ 10,000.00 in her will to the NSTC Alumni. This was started with the idea of buying or renting space to store the NSTC Alumni Artifacts. The fund has now grown to about \$48,000.00.

This is under the umbrella of the Friends of the Little White Schoolhouse Museum. As it is now, they look after the money. They collect the money and write the receipts. The only agreement we have between the Friends of the Little White Schoolhouse Museum and the NSTC Alumni at this time is by word of mouth. We decided it was time to have a written agreement.

In a letter to the attorney from the Alumni Association of the NSTC, we requested an agreement be drawn up between the Alumni Association of the NSTC and Friends of the Little White Schoolhouse Museum, as our best way to manage the funds in the NSTC Alumni Building Fund.

The lawyer says, as it is now, the money belongs to the LWSH. He said they are a charitable organization and cannot give us the money. He suggested we set up a committee of 8 members. This would consist of 4 from NSTC Alumni and 4 from the LWSH.

The committee will decide how the

money is to be managed, and report back to the executive of the Alumni of the NSTC.

It will be brought forward at the Annual meeting tomorrow just for information purposes. A NOTICE-OF-MOTION regarding this will be presented at the Annual Meeting tomorrow, and voted on at the Annual Meeting in 2008.

We agreed to go with the proposal that the lawyer has drawn up to set up a committee between the NSTC Alumni and the LWSH.

Moved by Robert Jordan and seconded by Dorinda McCully that we are in general agreement with the principle of the draft "Funding and Trust Agreement" that the lawyer has drawn up. Motion carried.

PRESIDENT'S REPORT

Dave Pottie updated the NSTC Alumni Members on the proceedings concerning the NSTC Alumni Building Fund. The fund started when Dr. Jane Norman left \$10,000.00 in her will to the NSTC Alumni, to start a fund to buy or rent space to store the NSTC Alumni Artifacts. This fund has now grown to about \$48,000.00.

This is under the umbrella of the Little White Schoolhouse Museum. As it is now they look after the money. They collect the money and write the receipts. The only agreement we have between the Friends of the Little White Schoolhouse Museum and the NSTC Alumni at this time is by word of mouth. We decided it was time to have a written agreement. In a letter to the attorney from the Alumni Association of the NSTC, we requested an agreement be drawn up between the Alumni Association of the NSTC and the Friends of the Little White Schoolhouse Museum, as how to best manage the funds in the NSTC Alumni Building Fund.

The lawyer says, as it is now, the money belongs to the LWSH. He suggested we set up a committee of 8 members. This would consist of 4 from NSTC Alumni and 4 from the LWSH.

This committee will decide how the money is to be managed, and report back to the executive of the Alumni of the NSTC.

We will give Notice-of-Motion regarding this to be ratified at the next Annual Meeting in 2008. We want it clear who has the money, so we can use it for the

purpose it was intended when we need it. We will try to get space in the former Provincial Normal College Building when the renovations are complete.

Moved by David Pottie seconded by Helen MacDonald to accept the president's report as presented. Motion carried.

Roberta Macnab suggested we should get an accurate financial statement from the LWSH to let us know exactly how much is in the Building Fund, how much has been spent, and what it has been spent on. The only reports we receive are it's about so much.

Moved by Robert Jordan, seconded by Eric Bent that the Executive recommends to the Alumni Association of the NSTC that we agree in principle to the Funding and Trust Agreement between the Friends of the LWSH and the Alumni Association of the NSTC, with the finished agreement coming to the Annual Meeting 2008 for ratification. Motion carried.

BUILDING FUND UPDATE

Eric Bent reported that at a meeting of the board of the Friends of the Little White Schoolhouse, held on Sept. 26, 2007, Gordon Jeffery suggested that the Alumni Association of the Nova Scotia Teachers College get their own tax number, and take over writing the receipts for any money that comes in from now on.

We would have to set up a separate fund and spend 80% of the profit each year on History of Education in Nova Scotia.

A discussion took place regarding what to do about the money already in the Building Fund.

Gordon Jeffery is saying that the board of the Friends of the Little White Schoolhouse want 2 separate funds, one for the money already there, and one for the Alumni Association of the NSTC to set up and handle. Gordon said that if the two funds are set up, then any money that came to them for the Building Fund would be given to the Alumni Association of the NSTC for their fund.

Robert Jordan said we have to set up a committee of members of the board of the LWSH, and the Alumni Association of the NSTC, to decide what to do with the money already in the Building Fund, and what to do with future money in a separate fund.

The Friends of the LWSH are asking the Alumni to set up this committee.

Robert Jordan moved that we establish a committee consisting of the president and treasurer of the Alumni Association of the NSTC, and members of the Friends of the LWSH who they designate for setting up a spending policy for the money already held by the Friends of the LWSH, under the "Building Fund." Seconded by Margaret Dawe. Motion carried.

Robert Jordan will set up a meeting consisting of David Pottie, Alan MacLean, and Robert Jordan to discuss this situation.

Rosella MacDonald suggested that Helen MacDonald should also be at the meeting with the 1997 graduates. David Pottie suggested they should meet by the end of October.

Robert Jordan will arrange this meeting, as he has all the names and phone numbers. David Pottie will chair the meeting. They will set up the rest of the committees after they meet with the 1997 graduates. Robert Jordan suggested they meet then report back to the Alumni Executive.

Helen MacDonald suggested we get the speaker early, so we can put it in the Newsletter. She suggested Joyce Barkhouse, graduate of the class of 1931.

David Pottie suggested Carmon Jess as our speaker. He has written 2 novels, worked with Foreign Affairs, and the Rural Poor.

Roberta Macnab suggested we do something for Harvey and Ann MacPhee as they celebrated their 60th Wedding Anniversary.

Helen MacDonald suggested each member of the Full Council look at the list of graduates for the years ending in 8. If anyone knows someone who they think would be a good chairperson, let Rosella MacDonald know.

Reunion 2008—August 15-17, Truro

Class Notes

Dorothy Geraldine Lamont (Ferguson)— '47

There is nothing I would enjoy more than "Reunion Activities" EXCEPT a visit from my 9 year old granddaughter from Beijing. She is my only grandchild and has been with me for three weeks and leaves this weekend so I cannot participate in Truro this time. Here's hoping for Great Weather, a Large Turnout, and lots of Good Cheer around.

Velma (Pettigrew) Redden—'47

I attended and indeed enjoyed the 2007 Alumni Reunion of the Teachers College. Celebrated were of course class years ending in "7". Since I attended in 1947 I had to go for my 60th anniversary. Following the traditional picture taking and lunch, the highlight, for me, was the afternoon meeting of those from the year '47. We shared what the past 60 years had held for each of us. Thanks to Roberta Macnab for this idea and for her leadership in this meeting. It was almost as if Jane Norman was there directing us to do just that. Roberta further suggested we send her the write ups of our stories, so I am enclosing mine:

As Velma Pettigrew, after leaving Normal College in 1947, I began that September as Grade I teacher in my hometown, Springhill, and was there for 4 years. While there I was a CGIT leader, active in the youth group and church choir. Following that, I taught in Dartmouth for 1 year. I then married my home town sweetheart. My husband was with the N. S. Light and Power in Bedford, and immediately I was asked to teach, so for the next 31 years I was teacher, and then elementary school principal, in Bedford. However after just 11 years of marriage my husband was electrocuted at his work. I continued teaching; remarried 3 years later and we adopted 2 lovely girls. During years in Bedford I had a school, and an adult, handbell choir, as well as opening the first early learning centre for the area. This centre provided a pre-school program for 4 year olds and, with well qualified and almost permanent staff, remained open for 30 years. Here, I have been involved in Sunday School, teacher and superintendent; church elder and am presently in my 23rd year as volunteer hospital visitor for my church. My 2nd husband passed away 18 years ago and I have kept busy through the years.

Len Denton—'48

Since graduation in 1948, I was principal of schools in Avonport, Kings Co. and Brooklyn, Queens Co. I next graduated from Acadia and then Dalhousie, obtaining a Masters in Psychology in 1954 and a Ph.D. in Educa-

tional Psychology from University of Alberta in 1967.

Between 1954 and 1967, I worked as a social worker and then as Chief Psychologist for the Child Welfare Division, Dept. of Welfare of Nova Scotia, clinical psychologist at a new mental health clinic in Truro, N.S., professor in psychology, Acadia University, psychologist with the Fundy Mental Health Clinic, Wolfville, N.S., and Director of Counselling and professor of psychology in Alberta at the newly founded Medicine Hat Junior College.

After my Ph.D., I was a consulting psychologist with the School Board, London, Ontario, Research Director at Newstart, an action-research program, Yarmouth, N.S., consultant with the National Institute for Research for the Retarded, Toronto, Executive Director and psychologist of the Cobequid Mental Health Centre, Truro, N.S., Program Director of a special care rehabilitation centre, and school psychologist with the Pictou District School Board.

I also was principal founder of a program research and evaluation organization, Atlantic Behavioural Science Applications, and operated a private practice in Truro and Kentville, N.S. My work in the fields of mental health and education has been recognized on three occasions by the Canadian Mental Health Association, and twice by the Nova Scotia Legislature.

I married Joyce Carey in 1953 and had four children. The eldest, Karen, teaches at the Nova Scotia Agricultural College, Truro. The 2nd eldest, Brenda, died of cancer in 1994. Rob, the 3rd, is a cartoonist, lives in the Truro area and is presently taking a digital imaging course at the Community College. The youngest, Greg, is an artist, band leader, and he teaches art courses for the University of Guelph, Guelph, Ontario. I currently reside at Edinburgh, a retirement home on Young Street, Truro, Nova Scotia.

Pat (Anderson) McGregor—'48

I would love to know where former classmates are. My e-mail address is pmcgregor@cgeco.ca. I live in Oakville, Ont. After teaching in Spryfield, I taught in Amherst - then went north to Noranda, Que. Married there and came to Ontario. Ended up 20 plus years in a high school library.

Regina Marie Dixon (LeJeune)— '53

Thank you for the reminder. I will not be attending this year. Wishing everyone a very happy week end!

(Continued on page 16 - See Notes)

Marian (Kennie) Stephens—'57

All the best in this year's reunion. I found out the dates too late. I guess I have been out of touch for too long. This is my 50th anniversary. I last attended in 1977.

Myrtle (Russell) Conrad—'61

Fraser & I (married 43 yrs.) live in Cow Bay & cottage in Upper Stewiacke, both very peaceful places to live. I am enjoying my retirement to the fullest since 1995. Fraser & I are blessed with three grandchildren Nathan 18, Brittany 15, and Melanie 13; having our daughter Janice & Walter Higgins as supportive parents. Our sad part in life was the passing of our son Paul at age 19 when he drowned in a car accident in 1988.

We have camped across Canada with our children, flew west on two occasions, traveled to Florida for a Christmas, travels in the US, many trips around the Maritimes & Quebec. This past summer we spent considerable time in NL & were there also in 1998.

I am a life member of WINS, member of Truro Archives & Pictou County Genealogical Association. Genealogy of our family is a major interest. As a member of Christ Church, Cow Bay I participate in their activities. Time Out For Women are interesting groups where crafts/handwork are enjoyed weekly. Yes, I did learn tatting & hardanger embroidery and enjoy it a great deal. Also learned the art of Swedish Weaving. I have crochet, knit & done smocking for many years. Knitting for the preemies at the Grace Hospital is always rewarding.

Fraser & I enjoy bird watching very much. We have many pheasants in our hamlet of Cow Bay. Walking each day is a joy!

I hope all my 1961 classmates are doing well, also. I wish them the best of happiness and health.

Robert Thomson—L class, '61

Greetings: I have been spending winters in Saint Simons Island, Georgia since 1999. The months that I am here in Nova Scotia (April-December) I am involved in various volunteer projects. I also make a lot of short trips to places of historical interest in the Maritimes. **Eleanor (Coupar) Johnson**, of Pictou Road, Truro passed away on June 13, 2007. Aunt Eleanor was 93 and was a PNC graduate, Class of 1932. Her many years of teaching were in a variety of teaching positions, particularly in the Truro area. A dedicated and enthusiastic teacher many of her friendships in retirement years included former students.

Susan Doucette—'73

I'm a grad from 1973 but have never been to a reunion. I always seem to hear about them after the fact. It would be nice to hear from some of the people who were at TC from 1971 to 1973. I lived at the Annex for my first year and have some wonderful memories of the girls that lived there. I would be pleased to hear from any of them as well. I never did teach full time but along with working for HRM Tourism in the summer season I sub at a couple of daycares through the winters. I love my jobs and feel my time at TC prepared me for both of them.

Crystal Huntington—A.Ed. '94

I am currently working at an international school in Dubai, United Arab Emirates as a K2 and Grade 3 Resource Teacher. I am in the midst of a 2 year certification to become a Literacy Coach and am working as the K1-Grade 5 Literacy Coach-in-training at my school. I previously worked in Taejon, South Korea for 2 years. I have traveled extensively over the past 3 years to places such as Thailand, China, Hong Kong, Vietnam, Australia, New Zealand, Jordan and Bahrain. This coming year I am hoping to visit Iran, will visit Thailand and Cambodia, hike Cinque Terre, Italy with friends and stop by Prague to visit friends from Korea. My most interesting experience was visiting a hill tribe in the highlands of Vietnam, seeing their school and what the teachers had to work with. As a result, I now collect any extra materials to be donated to schools in need around the world (this year, items are being raised at my school to support women's schools in Kabul). I'd love to hear from friends from TC.

Natalie Anne Macmaster—'97

Thanks for your recent note to Natalie. I believe I told you a few years ago that all of Natalie's e-mail comes to her Mom and Dad's home here in Cape Breton and I've been answering it on her behalf for the last number of years. Natalie has never really gotten into the world of computers because it seems that ever since she graduated in 1997, her life is full of touring and traveling with her musical career. She gets a great deal of fan mail and I enjoy answering it on her behalf. Also keeping her very busy is her married life with Donnell Leahy and their two small children. They had a son (Michael) on June 23, a little brother for Mary Frances. Speaking with Natalie earlier this week, she is looking forward to touring again at the end of August. I thought with her break away from the 'road life' the last few months, that she would be reluctant in going out again with two small

children however, she was 'giggling' in the thought of it all happening. I do admire her great outlook on life! Natalie will not be making it down to the Annual Reunion from August 17-19th. Because of having the baby in June, she thought it best not to travel this way this summer so that she can get Michael on a good schedule. She and her family will be visiting with us in September. She wanted me to send you her good wishes for a great weekend.

Silent Auction

The Silent Auction has become a tradition at our Reunions. It usually contains items ranging in value from \$25 to \$100 and more. We urge you to support the Silent Auction either as a do-

nor or buyer... or BOTH!! If you have anything you'd like to donate (crafts, collectables, art, antiques, home made goods—it's up to you) please drop us a note or email us.

What is Geocaching?

Geocaching is an adventure game for GPS users. The idea is to have individuals and organizations set up caches all over the world and share the locations of these

caches on the internet. GPS users can use the location coordinates to find the caches. More information is available at geocaching.com. A Reunion 2008 Geocaching Event is being planned! (see p. 20)
